## Introducing Directories of Accountants

A set of client acquisition directories created to make it easy for business owners to find accountants and accountants to get found by ready to sign clients looking for accountants.

We are changing the way accountants get leads and new clients with a leads generation management system that deliver leads direct to the inbox of accountants in our network at no cost.

### THE CA MANAGED SERVICE SYSTEM:

The service delivery is managed by the Accountants CA division, created to bring innovations to the client acquisition process.

This division provides a range of support services to give accountants a one-stop source for growing the client base and the opportunity to cut their acquisition cost and eliminate the need to invest in expensive advertising and sales programs.
